

BE SAFE AND ON TIME

You leave for school not knowing if you have a parking spot for an important group project presentation. So you speed.

You look and look, no spots available. After 45 -59 mins.

Now you're late & fail.

You Can't chance it so you use the parking lot app to secure a spot. Being safe and reliable

Ricky secures spot 457. Maps guided him safely

He didn't let his team down & got to his prior accomplished without constantly worrying about parking

With the App

Jacob Russell

Using the app Melvin is able to easily find a parking spot

Melvin: wow I love this app, I can't believe I found an empty parking lot at 12:00 pm on a monday during the Fall 2020 semester

Without the app

Melvin cannot find a parking space at all at the biggest lot

Melvin notices a man taking up for parking spaces with his Ford F150 Raptor. Melvin nature forces him to try and correct any one who breaks the rules

Mevlin tries to tell the man that he cannot take up multiple parking spaces with one vehicle

The man runs Melvin over and kills him

He Should Have Used the app!

John Doe is commuting to USC for his classes.

Kenneth Chow

John gets through traffic and arrives on campus. He tries to find a parking space in a parking lot.

John cannot find a parking space by just driving around. He is worried he will be late to class because he cannot park.

John uses an app that tells him exactly where there are available parking spaces on or near campus.

John finally parks his car and makes his way to class on time.

10:45 AM

10:55 AM

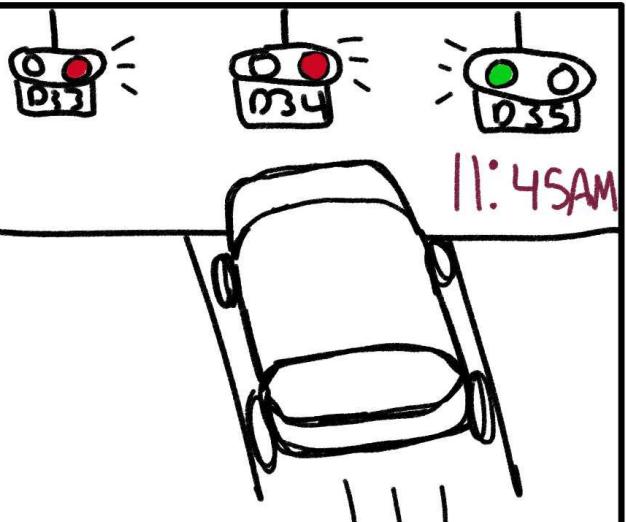

Reserve available spots for parking

11:30 AM

Reservations last a limited time to keep open spots moving

11:45AM
